APT and PBS Resources to Extend Learning and Challenge Students

Parents and students, come explore all the free digital resources from Alabama Public Television and PBS for all grade levels and subject areas. A variety of digital resources are available for use both at school and at home. No log in required. The resources integrate with Google Classroom, Schoology, Nearpod, See Saw, Microsoft Teams, Flipgrid, Pear Deck and many other tech tools. Explore the interactives, videos and so much more to enrich learning and extend content knowledge. Students can use these digital resources to research topics and design their own projects to demonstrate learning. PBS LearningMedia provides content for PreK-13+ and includes many favorite PBS programs such as: Ken Burns in the Classroom, PBS Kids collections, Nova, Nature, diversity resources, and so much more. So, if you are ready to discover and design innovative learning opportunities to challenge your children as they learn, join us to see the many resources available
This is a FREE workshop.
